Course Title

The Hip Bone's Connected to the Hyoid Bone: Body Systems and Swallowing

Course Description

This unique course teaches SLPs the why's and how's of incorporating a body systems approach to caring for patients with suspected dysphagia. Participants will learn essential knowledge for the SLP, how body systems function and interact, and how to incorporate this knowledge into patient care. Functional implementation of this approach is applied through the use of a case study that is infused throughout the course.

Learner Outcomes

As a result of this course, participants will be able to:

- List 3 components of essential knowledge for the SLP
- Identify 3 considerations of body systems in the areas of swallowing assessment and management
- State 2 effects of dysphagia on body systems
- Apply a body systems approach to the analysis of a case study

Agenda

- | | |
|---|------------|
| • Dysphagia Detective Part I: Essential knowledge for the SLP; Case history | 38 minutes |
| • Dysphagia Detective Part II: Body systems | 54 minutes |
| • Dysphagia Detective Part III: Interview, Clinical Swallow Evaluation | 17 minutes |
| • Learning assessment, survey, conclude | 11 minutes |

ASHA CEUs

This course is registered for 0.2 ASHA CEUs. Partial credit is not offered.

The Hip Bone's Connected to the Hyoid Bone: Body Systems and Swallowing

Course Completion Requirements: *In order to receive a certificate of completion, learners must do the following. Failure to complete all of these requirements will result in not receiving a certificate of completion or having participation reported to ASHA for CEUs:*

- Watch 100% of video lessons
- Earn a score of $\geq 80\%$ on the 6-questions, open-book, multiple-choice learning assessment. If needed, learners may retake the test in order to achieve a passing score.
- Complete and submit the course feedback survey.
- Submit the Reporting Information form and indicate whether you would like your participation reported to ASHA. Note: if you tell us you *don't* want ASHA CE reporting and later change your mind, we can't retroactively apply it.

Instructor Bio

Brooke Richardson, MS, CCC-SLP is a Medical Speech-Language Pathologist in the United States. She has been treating adults with complex medical needs in the acute and outpatient settings since 2009. She has been instrumental in establishing Respiratory Muscle Training (RMT) programs in multiple hospitals and other healthcare settings, and has spoken internationally on RMT. Brooke also values exceptional-quality continuing education for other MedSLPs, and seeks to improve our patient care by emphasizing the importance of understanding a patient's whole medical picture when evaluating and treating. Brooke is a graduate of the Medical Speech-Language Pathology program at the University of Washington. She offers all of her courses as a sole proprietor.
