COURSE TITLE

Oxygen Delivery for SLPs: Swallowing & Communication Considerations

COURSE DESCRIPTION

This comprehensive course gives SLPs clinically-relevant information on oxygen delivery systems, including standard and heated high flow nasal cannula (HFNC), BiPAP, and more. Learn the evidence on swallowing and HFNC use, patient candidacy for SLP services, and communication/swallowing considerations, plus get an at-your-fingertips quick reference with decision-making guidance.

LEARNER OUTCOMES

As a result of this course, participants will be able to:

- List at least 3 different types of oxygen delivery devices
- Explain the effect of heated high flow nasal cannula on airway pressures
- Describe the potential effect of various oxygen delivery devices on communication and swallowing
- Summarize current available evidence regarding the effects of heated high flow nasal cannula on swallowing

COURSE COMPLETION REQUIREMENTS

In order to receive a certificate of completion, and to have their participation reported for ASHA CEUs, learners must do the following.

- Watch 100% of video lessons. Completion is tracked and verified by this website.
- Earn a score of $\geq 80\%$ on a brief, open-book, multiple-choice test following each video lesson.
- If needed, learners may re-take the test two times in order to achieve a passing score.
- Complete and submit the course feedback survey.
- Submit the Reporting Information form and indicate whether you would like your participation reported to ASHA.
 - Note: if you tell us you don't want ASHA CE reporting and later change your mind, we can't retroactively apply it.

AGENDA

- Introduction 2 min.
- Oxygen and flow delivery 35 min.
- Understanding different types of devices and their uses 45 min.
- Appraising the evidence, SLP considerations 75 min.
- Conclusion 5 min.

INSTRUCTOR BIO

Brooke Richardson, MS, CCC-SLP, is a medical speech-language pathologist with active clinical experience in adult acute care and ICU settings since 2009. Her dedication to advancing continuing education for medical SLPs, paired with an emphasis on understanding a patient's complete medical picture during evaluation and treatment, led her to found The Modern MedSLP. She speaks and mentors internationally.
